# Admission to the College.

## CONDITIONS OF ADMISSION.

Central Wesleyan College admits students of both sexes to all its courses.

Candidates for admission should be at least fifteen years of age and of good moral character.

Entrance examinations are held at the beginning of each term. Pupils may be admitted to the classes of the Preparatory Department at other times; but applicants for admission to classes of the advanced courses should enter at the opening of a term, or if possible, at the beginning of the year.

Candidates for admission to the Preparatory Courses will be admitted on examination under the professors in charge.

Applicants for advanced standing will be subject to the examination in the branches previously pursued by the class to which they desire admission.

Grades will be accepted, provisionally, for work done in high schools, academies, and other colleges.

## GENERAL RULES.

The following general rules are presented for the regulation of the conduct of students. These rules are not intended to cover the whole range of a student's behavior, but are designed merely to indicate some things essential to the good order and success of the school.

In general, students are treated as self-respecting gentlemen and ladies, and will be held to the requirements and accorded the liberties of the rules of good society.

Registration by a student will be regarded as a pledge on his part, to comply with the rules and regulations of the school.

## THINGS REQUIRED.

1. Matriculation and complying with the financial requirements upon entering college.

2. Observance of study hours, which include the time from 7 a. m. to 9.30 p. m. each school day, except from 12 to 1 p. m. and from 4 to 7 p. m., and hours occupied in recitations.

3. Regular attendance upon all recitations and rhetorical exercises.

4. Prompt attendance upon the chapel devotional exercises each morning and upon one service at some church every Sabbath.

5. Payment of tuition in advance per term. If student is absent over two weeks at one time on account of sickness, or some other good reason, proper deduction will be made for time of absence.

6. Payment of board by the month in advance, if boarding in the institution.

7. Observance of the rule not to use tobacco upon the college grounds.

## Courses of Study.

### REMARKS ON PREPARATORY COURSES.

These courses are maintained with the two-fold design of 1st, affording opportunity for those who desire more thoroughly to acquaint themselves with the elementary branches; and 2nd, of furnishing a thorough and complete preparatory training to those students who design taking either of the regular college courses, but who are not sufficiently advanced to enter upon college work.

The lower, or General Preparatory Course, is arranged to meet the wants of students coming from our common schools, beginning with the branches taught there and continuing with the higher academic studies; the higher, or College Preparatory Course, includes Latin, and Greek, or German, as also mathematical and scientific studies, preparatory to entering the college courses, but which need not all be taken by students who do not desire to enter a college course, but wish to take select studies.

Classes in the more important elementary branches, such as Arithmetic, Grammar, Geography, United States History, are carried on at all times, thus affording opportunity for drill and review.

All persons in this department are subject to the same rules and regulations as those of the other departments and are equally entitled to all privileges which the institution affords.

## REMARKS ON THE CLASSICAL COURSE.

In this course, as well as in the Latin Scientific and Literary, the requirements of the University Senate are fully met.

Including the Preparatory Course, the Classical Course requires five years of Latin and four years of Greek. While these languages receive special attention, proficiency in the English, and a fair knowledge of the German, is also required.

It contains less mathematics and natural sciences than the Latin Scientific and Literary Courses. Students preparing for the ministry or for teaching will find it to their advantage to take this course.

Students in law, medicine, or theology are permitted to give one-fourth of their time required for graduation to one of these branches, and then make a good beginning in their specialty.

This course is well adapted to discipline the mind.

## REMARKS ON THE LATIN SCIENTIFIC COURSE.

The Preparatory Courses for this course are the same as those for the Classical Course.

Greek is not required, but more of the modern language, German and French. In the Latin Scientific, Latin may be substituted for French or Biology. The full German Course is required.

A full course in mathematics, with field practice, in which the student may learn the use of the compass and transit, is here offered. Zoology, Botany, Physics, Astronomy, Geology and Chemistry, each a half year, with laboratory practice and Biology the whole year. A six-foot refracting telescope with 5-inch objective is used in the study of Astronomy. The enlargement of the museum and the equipment of a laboratory with the most necessary apparatus for chemical, physical and biological work has added a new impetus to the work of this department.

## REMARKS ON THE LITERARY COURSE.

The Literary Course differs from the Classical in not requiring Greek, and from the Scientific in omitting some of the higher mathematics. In place of these, modern languages, history, and literature receive more attention. The course is especially adapted to the needs of public school teachers, and those pursuing musical studies.

## REMARKS ON THE NORMAL COURSE.

An object of the School is to give young ladies and gentlemen an opportunity to prepare themselves to become efficient teachers in English, German, or English-German schools. For this purpose a Normal Course of three years has been arranged, offering special advantages to those intending to teach. This course, in addition to the common branches, includes the practically more useful of the higher branches, and is thus suited to many, who, for want of means or other reasons, cannot complete the higher courses.

Students in this course are required to take Drawing and Vocal Music at least one year, and at least single entry Book-Keeping.

The Faculty assist their graduates to position, paying salaries \$40 to \$80 per month.

Any student completing the Normal Course will receive a certificate as a Normal Graduate.

## NORMAL COURSE.

## REMARKS ON THE THEOLOGICAL COURSE.

Students desiring to prepare for the ministry will find a complete Theological Course laid down. Since the studies are taken in German, it is not deemed necessary to give the Course in the English Catalogue.

## COMMERCIAL DEPARTMENT.

In this department special facilities are offered for gaining a thorough, practical knowledge of commercial affairs.

The course includes the following *required* studies, to which *one* of the *College Preparatory* studies is added, the choice being left to the student; viz:

*Book-keeping,*  
*Business Practice,*  
*Business Law,*  
*Business Correspondence,*

*Business Penmanship,*  
*Arithmetic,*  
*Grammar, and*  
*Spelling.*

The student will find it greatly to his advantage to take *Shorthand* and *Typewriting* as *extra* studies at the slight additional charge.

The work of the department as just outlined is divided into

### I. THE ELEMENTARY COURSE,

which includes, besides the studies taught in the *General Preparatory Course*, instruction in *Elementary Book-keeping*, and practice in writing *Business letters, notes, receipts, drafts, orders, checks, etc.*, and

### II. THE ADVANCED COURSE,

to which the student will be admitted on giving satisfactory evidence of thoroughly understanding the subjects included in the *General Preparatory Course*. *Book-keeping* by *Double and Single entry*, illustrating *single proprietorship, partnership, joint-stock company, and corporation* methods, with special features used in the modern counting-room in the *Retail, Wholesale, Coal, Lumber, Jobbing, Installment, Commission, Manufacturing and Banking* business, supplemented by a very extensive and practical system of *Business Practice*, and an exhaustive study of *Business Law*, constitute the principal work of this course.

To complete this course and receive a *Diploma*, attesting his proficiency, the student must pass satisfactory examinations in the *required* studies of the course and write a good hand.

The "*Williams and Rogers*" series of commercial texts, systems of *Business Practice*, and *Penmanship*, "*Pen Written Copies*" (reproduced),—the most popular, most widely used, and most practical treatises on commercial subjects in print, are made the basis of instruction.

#### The Time required to complete the Course

depends greatly upon the pupil's preparation, ability, application, energy, diligence, etc., varying from six months, in *exceptional* cases, to a year or more in case of such as are deficient in the elementary branches. A hastily pursued, imperfectly comprehended course is an unprofitable investment of time and money; we therefore wish our students to regard *thoroughness* of *first importance without reference to time*.

#### SHORT-HAND AND TYPEWRITING.

The importance of Short-hand and Typewriting is realized more and more, particularly in all commercial pursuits, but not less for their disciplinary value to the student in every department of the college, aside from their utility as aids in following a particular course of study, and after entering upon the active duties of life.

Every student in college who is far enough advanced to profit by the instruction in this department, should avail himself of the opportunity offered to acquire a practical knowledge of these subjects.

---

## RHETORICAL WORK.

### I. SENIOR CLASS.

Each member of the Senior Class will be required to prepare an oration of about one thousand words the second term of the school year, to be delivered before the school in connection with the morning chapel exercises.

### II. THE JUNIOR CLASS.

Required work: One thesis each the first and third terms, of about eight hundred words, by each member of the Junior Class on assigned subjects, to be read in connection with the morning chapel exercises.

### III. SOPHOMORE AND FRESHMEN CLASSES.

Each member of the Sophomore and Freshmen Classes must write one essay of six hundred words each term, to be read in connection with the chapel exercises.

### IV. WEEKLY ESSAYS.

All students, except the Seniors, are required to write one essay each week, character and length in each case to be decided by the grade of the student.

---

## READING COURSE.

Few students have had an opportunity, before going to college, to form a taste for good reading. At college they may devote themselves so exclusively to their text-books that here, too, they fail to acquire love for literature which is so essential to real culture. To partially meet this difficulty, a course of parallel reading is required.

For the next year the books are as follows :

### SENIOR PREPARATORY.

*First Term:* Bunyan's Pilgrim's Progress or Caspari's, Der Schulmeister und sein Sohn.

*Second Term:* Irving's Sketch Book or Pestalozzi's Lienhard und Gertrud.

*Third Term:* Selections from Longfellow or Goethe's Hermann and Dorothea.

---

### FOR FRESHMEN.

*First Term:* Dickens' David Copperfield oder Jung Stilling's Autobiographie.

*Second Term:* Ruskin's Sesame and Lilies, or General Gordon, Der Held und Christ.

*Third Term:* Arnold's Sohrab and Rustum or Weitbrecht's, Der Freiherr von Stein.

### FOR SOPHOMORES.

*First Term:* Scott's Ivanhoe or Pauline Erzlig, Aus der Zeit der Zerstörung Jerusalem's.

*Second Term:* Selected Essays from Macaulay or Ostertag's Graf von Zinsendorf.

*Third Term:* Merchant of Venice or Schmidt's Drei Eiserne Männer.

### FOR JUNIORS AND SENIORS.

*First Term:* George Eliots, Silas Warner.

*Second Term:* Webster's First Bunker Hill Oration.

*Third Term:* Shakespeare's Julius Caesar.

---

## TEXT BOOKS.

*Scudder's First Latin Reader, Rolfe's Viri Romae, Rolfe's Nepos, Kelsey's Cäsar, Kelsey's Cicero, Greenough & Kittredge's Virgil, Rolfe's Text in Livy, Chase & Stuart's Horace, Rockwood's Cicero's de Senectate. Latin Grammars: Bennett (for class work), Allen & Greenough and Harkness (for reference.) Dictionary: Lewis' Elementary, White's Beginner's Greek Book, Goodwin's Xenophon, Keep's Homer, Wagner's Plato's Apology & Crito, Blake's Hellenica, Johnson's Herodotos. In New Testament the text of Westcott & Hort or Tischendorf -- Gebhardt. Goodwin's Greek Grammar, Dictionaries: Liddell & Scott's Abridged and Benseler; Welsh's Geometry, Well's University Algebra, Wentworth's Trigonometry, Surveying and Navigation, Olney's Analytical Geometry and Calculus, Peck's Mechanics, Appleton's Physical Geography, Martin's Physiology, Packard's Zoology, Gray's Botany, Gage's Physics, Young's Astronomy, Dana's Geology, Remsen's Chemistry, Meyer's History, Genung's Rhetoric, McCosh's Logic, McCosh's Psychology, Laughlin's Political Economy, Fischer's Evidences, Gregory's Ethics, Chardenal's French Grammar, Super's French Reader, Schwegler's History of Philosophy, Zeller's Handbook of Greek Philosophy.*

# Conservatory of Music.

## GENERAL REMARKS.

The branches taught are Piano, Organ, Violin, Guitar, Clarionet, Cornet, etc., as well as Vocal Culture, Harmony, Sight Singing, and Reading of Piano and Organ Music. The Conservatory Courses comprise a preparatory department and six grades in Piano, four in Harmony, six in Violin, and four in the Vocal Course. The time needed to complete a course will depend on the ability and industry of the pupil.

The Conservatory is to music what the college is to a literary and scientific education. As no one now would think of educating his children exclusively by private instruction, so it is no longer expected that any one will reach any degree of excellence in music who takes private lessons only. The number of students all bent on the same subject, the friendly rivalry springing from it, the regularity with which lessons are given, the special advantages of hearing the best musicians, the opportunity of playing together with others of the same grade, and of performing in public, in fact, the whole surroundings of a Conservatory are favorable to learning. Besides these special advantages for learning, the cheapness, as compared with private instruction, if it should be given in all branches required of a competent musician, is an important consideration.

## PIANO AND ORGAN.

Instruction is given on the piano and organ by thoroughly competent professors, one of whom received his education in Germany.

## VIOLIN.

This department is in charge of a first-class instructor, who also gives instruction on other orchestral instruments.

## VOCAL CULTURE.

This department is in charge of a competent instructor and an excellent singer.

## HARMONY AND THEORY.

What grammar and rhetoric are to language, harmony and theory are to music. As no one can claim to know a language, if he is ignorant of its grammar, so no one can lay claim to a knowledge of music if he is ignorant of harmony.

### ENSEMBLE WORK.

The various *ensemble* classes, recitals, and concerts afford opportunities for playing in public, thereby securing confidence and self-possession to the performer. The weekly meetings of the Beethoven Association in its two divisions—the Chorus and Orchestra—also supply a very important means of musical culture. At the end of the year, a Graduating Recital is required of those completing a course.

### PIPE ORGAN.

Opportunity is offered for learning to play on the pedal organ.

### CONCERT SERIES.

A series of concerts are given every year, by artists and by the music scholars, assisted by competent musicians.

The following artist concert programmes were rendered during the year of 1895—96:

#### FIRST NUMBER OF THE B. M. A. CONCERT SERIES.

# General Information and Special Advantages.

## CENTRAL WESLEYAN COLLEGE

was founded in the year 1864 by the Methodist Episcopal Church, and is under the patronage of the St. Louis German and West German Conferences. It is denominational, but not sectarian. The courses being taught in English, excepting the Theological and German, both English and German speaking students have equal advantages. Hundreds of young ladies and gentlemen of various denominations, both English and German, have availed themselves of the privileges here so liberally offered.

**The Growth** of the College during the thirty-one years of its existence have been permanent and healthy. The number of patrons and friends has steadily increased, and the Lord is opening the hearts and purses to meet our growing wants. Our successful past can but give us a new impetus to increased zeal and faithfulness in the important work of imparting a Christian education, especially to our German-American youth.

### AIM.

The object of this Institution is, to provide for the liberal Christian education of the young men and women who may be intrusted to our care and instruction, and thus to aid them in securing the best preparation for the different spheres and avocations of life. Recognizing the fact, that a large majority of those seeking a liberal culture, come from the laborer's home, from the farm and the shop, it has reduced expenses as low as possible, so that the poorest youth need not be deprived of the benefits of a thorough education. No pains will be spared to develop the pure and noble qualities in their nature, while the intellect is being disciplined and enriched with knowledge. The college endeavors to continue the work of the Christian home, to develop the pupil under its care into cultured Christian manhood and womanhood.

We trust the blessing of God may continue to rest upon our labors to build up an institution which shall reflect credit upon the Church, the State and the Home.

## SPECIAL FEATURE.

A characteristic feature of the College is the attention which is paid to German. Its facilities for giving the students not only a theoretical, but a practical mastery of the language, are unequaled in any college in the West. The majority of the students are of German parentage. German is used as a medium of instruction in all of the German classes. One of the literary societies of the College conducts its exercises entirely in the German language. All Professors understand German, and three of them completed their education in Germany.

## LOCATION.

The College is located at Warrenton, Mo., sixty miles west of St. Louis, on the Wabash Railway, which makes connections with all prominent and intermediate points, North, South, East and West.

The location is high and healthful, in a pleasant part of the State, on the dividing ridge, separating the Missouri and Mississippi Rivers.

The College has a large, commodious three story building which supplies rooms for Recitation, Museum, Laboratory, Library, and Literary Society purposes.

*The Kessler Hall* contains the Chapel and Concert Hall, and the Conservatory of Music.

Besides these two College Buildings, the school has one *Ladies' Home*, a beautiful two story brick building, *two dormitories* for gentlemen, and a commodious *church edifice*, for its use, for religious meetings and commencement exercises.

The buildings are situated in a beautiful grove of maple and forest trees, and present a very attractive and home like appearance.

## EXAMINATION.

The preliminary examination may be either written or oral. At the close of each term there are written examinations, and at the close of the third term there is, in addition, a public oral examination in some branches.

## STANDING.

A record of scholarship and deportment is kept by the Faculty.

The standing in studies is made up on the scale of one hundred from examinations and the daily class record, each being considered of equal weight.

Information concerning conduct and general progress will be sent to parents or guardians by request and when the Faculty deem it necessary.

## DEGREES.

Four years are contemplated as the time necessary to complete the Classical, Scientific, or Literary Course of study. All candidates must possess a good moral character, and must have passed satisfactory examinations in the studies of their respective courses.

All candidates who obtain the required standard, will receive the degree of A. B., B. S. or B. L. Fee \$5.00.

Candidates for the degree of A. M. or M. S. must apply to the President before the close of the school. The fee in each case is five dollars, payable in advance.

Diplomas are also granted to students completing the Theological, Musical, Normal, Business, or German Course. The fee for the Musical or Normal is \$3.00, for the Commercial \$2.00, payable in advance.

## RELIGIOUS EXERCISES.

Devotional exercises, consisting of scripture reading, singing and prayer, are held daily, except Saturday and Sunday, in the College Chapel, which all students are required to attend.

Students are also required to attend public worship in one of the churches once on Sunday, and are encouraged to attend Sunday-School and weekly meetings of the Epworth League, of which a large number of our students are members. Daily prayer meetings are held by the students.

## LIBRARY AND READING ROOM.

A room has been fitted up on the first floor for our Library and Reading Room. Students now have easy access to the current literature of the day, a large number of magazines and periodicals, including dailies, is always on file.

The library has been reduced to system and order. It contains 4200 volumes, which are proving of great use to students in their work. Donations of books, pamphlets, magazines, etc., are thankfully received.

The following donations were made to the library for the present year:

Dr. J. Timken, 8 Vol. North Am. Review. Rev. F. L. Mahle, Bible dated 1660. F. Rock, Book of Sermons dated 1700. S. G. Robertson, 1 Vol. Government Reports 20 Vols.

## LECTURES.

A Lecture Course is sustained by the College, giving the students opportunity to hear a good lecture by some prominent lecturer each month of the school year.

## LABORATORY.

The Laboratory has been greatly improved. It is now well furnished with apparatus necessary for the performance of experiments. Some fine additions were also made to the Physical Laboratory this year, so that the facilities for laboratory practice are good. A small fee is charged for the use of apparatus and chemicals.

## MUSEUM.

The Museum was this year transferred from its small quarters into a large room especially fitted up with ample shelving and cases for this purpose, making it possible to display the specimens which we now have and to place new ones, as we receive them.

The Museum contains a large number of specimen, charts, etc., illustrating mineralogy, geology, zoology, and applied sciences. Skeletons and charts are provided for teaching physiology, and a herbarium for students in botany.

Friends of the school have contributed quite liberally to this department and it is hoped that they will continue to assist us in making our collection as complete as possible.

The following specimens were donated during the current year:

Mary Geisinger, model of the Black hole, Calcutta; model of native mill for grinding grain; drinking vessel; seeds of the Tallow tree, and a lot of trinkets for personal adornment. All from India.—F. J. Hubach, microscopic slides, copy of a Sunday school paper in raised letters for the blind.—Gustav Heidel, microscopic slides—Mr. Gunther, per Rev. C. F. Bauer, a pair of horns of a Texas steer.—Rev. F. Gruenewald, lead ore.

GOETHENIA LITERARY SOCIETY HALL.

### SOCIETIES.

The *Beethoven Association* unites the musical talent in the school for harmonious action and supplies the music for literary entertainments and concerts.

Four Societies enable students to engage in various kinds of literary exercises, and to gain practically a familiarity with parliamentary law.

The *Goethenian Society* consists of young men, who, in all their society exercises, use only the English language.

The *Germania-Verein*, consisting also of young men, permits only German to be used within its Hall.

The *Garfield Society* offers special advantages to younger students.

The *Union Temperance Society* has held regular public meetings during the year.

*Philomathia* was organized two years ago to give the young ladies an opportunity to gain literary and parliamentary skill.

The societies are in a flourishing condition, and are considered a very important addition to the ordinary school work.

The *Oratorical Associations*, both English and German, to which all regular collegiate students belong who have been in attendance at College for one year, offer opportunity for and give special incentive to oratorical work in the friendly contests which are held annually.

## ORATORICAL PRIZES.

Through the kindness of Rev. O. E. Kriege, and another friend of the school, four prizes are offered annually for the best oration in German and English, two of \$15 each; and two of \$10 each; the best English and the best German receiving each the first, and the next best in each receiving the second prizes. In consequence of these offers friendly contests are held annually, when specially appointed judges mark upon the thought, style, and delivery of the oration, and decide which orations are to receive the prizes.

The prizes in the German contest were awarded by the Judges, Rev. O. E. Kriege, Rev. F. L. Mahle, and Rev. Hy. Schutz to G. J. Sohm and J. G. Lehnert.

## COLLEGE PUBLICATIONS.

*The College Star* is published monthly during the school year. It is the organ of the Faculty and the Students.

Its object is to give information in regard to the condition of the College in general and, in a measure, to represent the various departments.

It also contains original articles on education by competent writers and serves as a medium through which the ex-students exchange views and keep up their friendly relation to one another and their *alma mater*. Subscription price, fifty cents per annum. Catalogues are published annually.

## BOOKS.

All text-books, as well as stationery, are kept in the College building, and will be sold to students below retail price.

## MILITARY TACTICS AND GYMNASIUM.

The Faculty has organized a department in Military Tactics and Gymnastics. The military drill is entered into with the enthusiastic spirit of a soldier and gives the student the best physical exercise, because it is acquired in a pleasant frame of mind. It also furnishes a moral culture of scarcely less value than the bodily exercise it affords. It helps materially in training boys to habits of obedience, prompt, unquestioned, and which boys feel to be manly. It develops a manly spirit in a boy, invigorates both body and mind, makes him more graceful and gentlemanly in his bearing and helps to fit him to be a good citizen.

Sixty stands of arms, with all accompanying accoutrements, have been secured from the Governor of the State of Missouri, and they are kept in a suitable Armory. The Faculty appoints all officers and the drills are all to be under the supervision of Prof. Jno. H. Frick, the Commander, or some one appointed by him. A deposit of one dollar with the Commander will be required of each cadet on entering the company, as a guarantee for the proper use of the arms and accoutrements, and will be refunded at the end of the year if the student has a clear record as a soldier.

The officers of the company for the past year were: Captain, J. P. Koeller; First Lieutenant, J. J. Frick; Second Lieutenant, Benj. Eisenmann; First Sergeant, A. H. Ponath. The company had a foot ball team this year and devoted a large part of their time to gymnastics, in which the captain excels.

### SELF HELP.

Students find opportunity to reduce their expenses here by working part of their time.

Not a few students have "earned their way" through College here. Others succeed in working their way in part. Often students find opportunity to earn money during the summer. Competent and needy students sometimes discontinue their studies for a year, or so, and teach and then earn sufficient to finish their course.

The Faculty use their influence in securing positions temporarily or permanently.

### BOARDING DEPARTMENT.

REV J. H. DREYER, Superintendent.

The charges for board, light and fuel are only \$2.50 per week, making the total expense as low as in Institutions where the students board themselves in clubs. In the catalogues of such institutions generally the cost of board only is given, and nothing is said about the expenses for room rent, furniture, fuel, light, beds and bedding, and washing the same. All these, with but few exceptions (see below), are furnished at the College for \$2.50 per week. Students also avoid all the care, trouble and inconveniences which pertain to a boarding club, and can devote their whole time to study. Securing supplies, cooks kitchen furniture, fuel, etc., give them no care or anxiety whatever.

### STUDENTS' HOMES.

The College is in possession of large, commodious buildings, containing private rooms for pupils, and hence a large number of students can have their rooms and get their meals at the institution, and so be entirely under the supervision of the Faculty and Officers of the school.

Each room is furnished with the necessary furniture with the exception of mirrors, blankets, pillows, and feather beds. These must be furnished by the students themselves. They must also furnish their own toilet soap and lamp chimneys. Blankets will be furnished at the rate of 25 cents each per term.

CHAPEL IN KESSLER HALL.

If any one wishes to occupy a room alone, he must pay extra charges for the same. The Boarding Department and rooms for students are in close proximity to the College, requiring little or no exposure in winter, and surrounded by pleasant grounds and beautiful shade trees, making it delightful in warm weather.

## LADIES' HOME.

It is a large and commodious brick structure, heated by steam and lighted by electricity. It is beautifully situated, has nicely furnished rooms and offers to young ladies an agreeable and pleasant home. Those rooming here are under the special care of a matron.

Board, lodging, light and fuel cost \$3.00 per week.

For further information, regarding boarding and lodging, write to Rev. J. H. Dreyer, Warrenton, Mo.

### DEPOSIT OF MONEY.

Money can be deposited with the President for safe-keeping. Parents will do well to note this fact. For many reasons it is not good for young persons to have control of large sums of money. The consequences are generally evil.

### DISCIPLINE.

The discipline of the school is mild and in accordance with moral and Christian principles. Unnecessary strictness and severity will be avoided. In cases where pupils refuse to be governed by mild means and admonitions, warnings and reprimands are disregarded, suspension, dismissal or expulsion will be resorted to, in order to preserve the good name of the school, and to prevent others from being injured by their bad example. No student who uses intoxicating drinks, swears, or is guilty of any other gross misconduct, is allowed to remain in the College.

We can assure parents and children, pastors and societies, that we earnestly seek the good of those entrusted to our care, and that the results of our methods have been good and blessed of God.

---

Any further information in regard to the School or its arrangements will be gladly given. The correspondence of all interested parties is therefore earnestly solicited.
